

WIOA Program: CCNP Routing & Switching Training-Cisco Network Engineer

The CEO of Alibaba Inc, China's largest e-commerce corporation, Jack Ma (Ma Yun) said:"We have transitioned from the age of IT-Information Technology to the age of DT-Data Technology, or the age of the Internet. The Internet has just begun to change our lives. As architects of the Internet, **Cisco Network Engineers are among the most sought-after talents in this highly rewarding Data Technology economy.**"

LaneCert Inc is a Career school authorized by the Texas WorkForce Commission. Our training programs include Cisco, Juniper, Microsoft, and other IT fields. The courses cover lectures, practice, and industry certification. All of our instructors have ten to fifteen years working and teaching experience in networking.

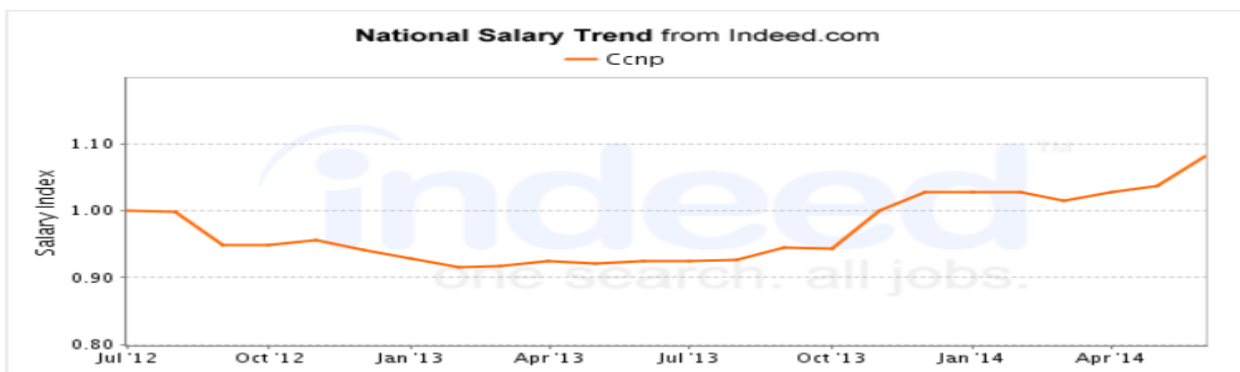

LaneCert provides four **popular** WIOA Programs: **CCNP Routing & Switching Training**, **CCNP Security Training**, **CCNP Service Provider Training**, and **CCNP Data Center Training**. All of them are **Cisco Network Engineer training, not Technician training.**

According to indeed statistics, Average CCNP salaries for job postings in Texas is \$92,000.

Average Salary of Jobs Matching Your Search

Average Ccnp salaries for job postings in Texas are 3% lower than average Ccnp salaries for job postings nationwide.
